

## microcote HPU

BEFORE

AFTER

One coat Microcote HPU Yellow installed over a dark substrate at Jeep, Frankston.

**Floors are the highest risk, most abused and most costly to maintain surface in most facilities.**

There is always a balance that must be achieved between compliance, safety, cleaning, aesthetics, performance, cost and disruption.

Bio Surfaces offers a full range of options for new builds and refurbishments, repairing, restoring or improving slip resistance on any interior or exterior pedestrian surface.

## We can help with;

- **Safety Vinyl** - Commercial Kitchens, wet areas, ensuites, etc.
