

BEFORE

Scuffed, faded and stained fibreglass tables at a school.

AFTER

Lightly sanded and one coat of Microcote HPU Grey.

Bio Surfaces offers a range of high-performance protective coating designed to extend asset life.

All our coatings have been sourced to solve specific problems for customers and are UV stable, water based, odourless and offer world class performance.

Suitable for almost all substrates and provide the added option for increasing slip resistance for floors.

Bio Surfaces offers coating solutions for vertical and horizontal surfaces. Focusing on reducing long term costs by improving safety, hygiene, sustainability, restoration and extending asset life.

microcote HPU Protective coating and wear surface

Microcote HPU is a solvent free polyurethane surface coating with exceptional performance properties. Ideal for restoring vinyl, LVT, Linoleum, tile, stone, laminates, fibreglass and many other surfaces.

- Solvent Free, very low VOC and odourless. Clear and standard colours.
- Seals and protects porous surfaces creating hygienic, easy clean surface.
- Very durable moisture, stain and abrasion protection.
- UV, chemical and stain resistant. Interior and exterior use.
- Suitable for wet, sterile and food preparation areas.
- Direct application (no primer) to most surfaces including floors.
- Also available – **Microcote Anti-slip** and **Microcote Antimicrobial**

Marine and industrial corrosion and rust preventive and restorative coating

Single component water-based moisture and vapour barrier, UV stable, hydrophobic, fuel and acid resistant and flame retardant.

- Long-term Asset life protection and extension
- Lower maintenance and whole of life costs
- Application to most substrates.

MAD Armour – Marine Grade rubber coating for superior substrate protection.

- Hot and cold piping
- HVAC units, ducts, cooling towers, plenums, etc
- Roofs – Cooling, waterproofing, ponding water
- Plant rooms

MAD Shark – Advanced waterproof non-slip marine grade floor coating.

- Coat, insulate and protect all floors with non-slip coating.
- Kitchens/Galleys, decks, ramps, ladders.
- Waterproof plant rooms, pool areas, roof areas.

MAD Grip – Non-slip handrail protection.

- Exterior railings, hand rails, steps, gratings, ladders walkways, and ramps.
- Stair well rails, fire stairs, railings.
- Pool environments

MAD Defense - Specialty Rust converter and Primer (For use with MAD Armour)

- Water based, Low VOC, Odourless, single component.
- Apply direct to rusted area. No need for surface Preparation.
- Converts Rust to non-corrosive surface.
